

DE RANGE OF PRODUCTS LINKED TO

HYDRAULICS PUMPS

gear pump · piston pump vane pump

Rexroth

VOITH

Linde, Nachi, Maximator, Berarma, Marzocchi, Kracht, Hydrokraft, HPI, Casappa, Grundfos, Lowara...

MOTORS AND CYLINDERS

gear motor • piston motor vane motor • ISO, CNOMO cylinder

HYDRO

CALZONI CALZONI

Rexroth VIEKERS Danfell F:T.N atos A XHYDRO

Charlynn, Staffa, Bonfiglioli, Oilgear, Poclain, Brevini, HPI, Caterpillar, Demag Rossi, Glual, Taiyo...

VALVES

industrial valve • mobile valve • modular, conventional, proportional valve • servo-valve

CHIANA

Sun, Hydronorma...

Rexroth

VICKERS

atos 🛕

MOOG

F-TON

Daikin, Aron, Wandfluh, Walvoil, hoerbiger, Oil control,

FILTERS AND ACCESSORIES

complete filter • filter element • manometer switch • coupling • bellhousing

Donaldson

50FERA

MAHLE

Fleetguard, Cummins, Internormen, Rellumix, Hifi, KTR, SKF, Erbro, Gemü, Bürkert...

ACCUMULATORS AND COOLERS

bladder, piston, diaphragm accumulator safety block • plate cooler, tubular cooler

Rexroth

VICKERS

Funke, Emmegi, Bolenz, Fox, SAIP, Bugge...

SPARE PARTS

rotating group • cartridge kit • shaft seall kit • coil • repair kit

Rexroth

VICKERS

HYDAD

LIEBHERR

CALZONI

CAT

XHYDRO*

Hydromatik, Hitachi, Komatsu, Marrel Hydro, Mecabor...

PNEUMATICS AND ELECTRICS

valve • cylinder • air conditionning • distribution control

SMC, FESTO, CPOAC, GURY, Merlin gerin, Telemecanique, Schroeder, Pilz, Schmersal, Pneumax...

HYDRAULIC EXPERIENCE AT YOUR SERVICE

SERVICE - MAINTENANCE

Repair - On-site intervention: Fast repair of any hydraulic or pneumatic equipment, process and parts in your production sites or our workshops is our daily duty. Our warehouse stock and perfect equipment knowledge of our intervention technical teams trained throughout the year by new manufacturer products are the guarantee of appropriate and rapid solution for reliable restart of your facilities.

Maintenance contract: All maintenance projects, level I to IV, according to manufacturer prescription along with programs collectively established with your technical teams are realized by our engineers and technicians in compliance with quality standard ISO 9001. All these services as well as the aims to achieve are proposed to you under maintenance contract by engaging us on the results to obtain.

Requalification of equipment under pressure: Certified control center, we are the inspection and requalification specialists of all your equipment under pressure in our workshops or your production sites through the mobility of our industial test bench.

TEST BENCHES

DIAGNOSIS AND EXPERTISE: Our expertise in hydraulic and pneumatic fields, in process and parts allows us to propose you rapid solutions of reliability and improvement of your production tools. It often leads to reconstruction with modernization of this production tool.

REPAIR: Using our different industrial test benches, our engineers revive your equipment: pump, motor, valve, proportional valve. For all obsolet and irreparable equipment we can propose a technical solution of replacement whatever the brand is.

Our long experience ensures a guaranteed result.

RESEARCH DEPARTMENT engineering - conception realization

All our skills acquired for the last Thereby, many prototype

All our skills acquired for the last 30 years have been leading us to design and realize many hydraulic and pneumatic equipment, more than "1000 power stations", test benches, measurement and monitoring in the environment, production lines and production edges.

Thereby, many prototype equipment realized for laboratories have been industrialized for the production.

Whatever your activity sector is, our **know-how** accompanies you from your project study up to its realization

REALIZATION

of all type of hydraulic projects

Up to 2.5 Megawatt
Up to 30 000 I/mn
From 1 to 4000 bar
Cylinder ø up to 400mm

WELL-MANAGED SUPPLY CHAIN - GUARANTEE OF YOUR CONFIDENCE

SUPPORT

- Centralized management of your needs
- Efficient technical support in all circumstances
- Cost discount
- Serenity and sustainability

Reliable and mastered technical realizations guarantee of our longevity

International recogniton of our know-how

Availability 24h /24 through our presences on 3 continents Our technicians and engineers have experience in different clients needs

Multicultural technical and commercial staff adapted to international problems

> We already trusted by 20 000 clients around the world

CUSTOMER NEEDS

- A sales representative dedicated for a maximum efficiency
- A technical analysis for much relevance some Expert Counsils for spécific situations

- Perfect mastery of Incoterms Certifications & Regulations of different countries
- Transport adapted to customers' needs
- Letter of credit and documentary remittance

LOGISTICS

Certificate of Origin, EUR 1, GOST...
Control type COTECNA

Road, air, sea, express or grouping transport

We deliver to more than 60 countries

In-depth knowledge off all market brands

200 000 available pieces on-site seperated on several continents

30 years experience across all business sectors

- Multiples choises offers
- Personalized offers
- Engineering adapted to real needs

CUSTOMER OFFER

Our response to hydraulic market development:

More than just a brand, it is the expression of our desire to find the **alternative solutions** to our customers' needs. We ship in France and foreign countries our wide product range under our **label registered since more than 10 years**.

INTERCHANGEABILITY • AVAILABILITY • EXTENDED WARRANTY • COMPETITIVENESS • SPECIFIC NEEDS

OUR INTERNATIONAL KNOW-HOW

IS RIGHT BY YOUR SIDES
EVERY DAY
